

Task-Map - Create a Custom Colour Palette . txt file

Below is an example of a Custom Colour palette file created using Windows Notepad for use with Task-Map. The text file is required to be 27 lines long starting with your choice of "Empty Colour" which is usually White. The next 13 lines should be the names of your choice of colours from the 5No. Task-Map colour palette sheets. Your chosen 13 colours are then duplicated at the end of your text file giving you 27 lines in total (1 + 13 + 13)

PLEASE NOTE: Text shown below in Blue are indicative and should not appear in your palette text file.

Task-Map Palette 1.txt - Notepad		
File Edit Format View Help		
1.	White	
2.	Gold	Solid
3.	Crimson	Hatched
4.	LightGreen	Solid
